

**South Peace Community Resources Society and the
Business Community of Dawson Creek are
partnering in this year's
Take Back the Night Celebration**

On **Wednesday September 21, 2005**, women will take to the streets visiting different businesses in the downtown core, enjoying the safety of the streets and the support of the business community in this year's Take Back the Night Celebration.

"Take Back the Night" is an international evening of celebration as well as protest. Women around the world continue to experience violence in their homes and on the streets in their communities. A woman walking down the street at night, getting into her car, or going into her home must always be aware of the possible risks; safety is not something she can take for granted. Take Back the Night gives women the opportunity to join together as community members to protest violence against women and to promote awareness of attitudes, beliefs, and behaviours which perpetuate this violence.

South Peace Community Resources Society encourages everyone to take an active role in changing our society from one where women have reason to fear being out at night alone to one where we all feel safe. So please join us to help raise awareness about the issues of violence and fear that women face daily; and make a public statement about our commitment to working together to make our community a safer place to live.

Take Back the Night will commence at the City Hall parking lot at 6:00 p.m. If you require more information please contact South Peace Community Resources Society and ask for Jane or Sian. We hope to see you there!
